## CONDITIONS OF SALE

1. All sheep are to be sold under LAA Conditions of Sale, a copy of which is displayed in the market office.
2. LIS-1 09/23 sheep movement licence must accompany stock
3. All sheep must be tagged in accordance with DEFRA rules
4. Vendors and purchasers must comply with all current health & safety, disease & movement regulations.
5. No stock to be removed from the sales premises without a sheep movement licence issued by the market office
6. All sheep will be sold in guineas (£1.05). Purchasers are requested to settle their account at the close of sale.
7. All sheep within this Catalogue are NON MV ACCREDITED.
8. The Association Committee reserves the right to restrict entries or sale of any animal/s if the need arises.

Every effort has been made to ensure the information supplied by members detailed within this Catalogue is correct but the Dorset Down Sheep Breeders' Association will not accept liability in respect of inaccuracies or change in details and for any entries not forward on the day of Sale. Pictures within this Catalogue are for illustrative purposes only.

## UPSET PRICE

DDSBA Bye-Law Rule 13 applies to the following classes of sheep sold by Auction and shall not be less than stated below;

<b>Males</b>	<b>Registered Shearling Ram</b>	<b>£350.00</b>
	<b>Registered Ram Lamb</b>	<b>£300.00</b>
<b>Females</b>	<b>Registered Shearling Ewe</b>	<b>£150.00</b>
	<b>Registered Ewe Lamb</b>	<b>£150.00</b>

## NOTE TO PURCHASERS

**IF YOU INTEND TO PURCHASE SHEEP PLEASE ENSURE YOU HAVE REGISTERED WITH THE AUCTIONEERS 'GTH' AT LEAST 48 HOURS PRIOR TO THE AUCTION IF YOU HAVE NOT TRADED WITH THEM BEFORE**

## **THE DORSET DOWN ANNUAL FLOCK BOOK**

The Dorset Down Flock Book is available to purchase at a cost of £5. It contains the Bye Laws of the Association and a complete list of all the Members; addresses, phone numbers and Flock Numbers, as well as other interesting information about the Breed.

The Dorset Down Breed is on the approved list of Native Breeds issued by Natural England for Stewardship Schemes and is listed on the RBST Watch list; Category At Risk.

### **MEMBERSHIP**

If you have purchased stock at this sale the Association would like to hear from you. If you are interested in becoming a member please contact the Breed Secretary for Membership details. The Association is a registered Charity No. 238688 and is registered with Companies House – Company Registration No. 84799.

### **EXPORT**

Sheep forward at this auction have NOT been genotype tested for ARR/ARR or Brucella Ovis (rams) therefore will not be eligible for export. Dorset Down rams have been successfully exported to France direct from breeders' farms in 2014 and 2016.

### **DIRECTIONS**

From Junction 24 of the M5 take either exit slip road and travel towards Bridgwater. At the roundabout take the first exit onto the A38 towards North Petherton. The entrance to the market will be found at the traffic lights on the left after approximately a quarter of a mile.

## **DORSET DOWN**

The Dorset Down is a medium sized active sheep free from all coarseness and embodying the good breed points common to all sheep breeds. A head with a wide forehead, muzzle moderately fine in females, ears of medium length, fine and free from wool, brown in colour, carried almost horizontally above the level of the eyes. The neck short and well set into the shoulders with well sprung ribs, level back, wide flat loin, the tail head well set up and well filled hind quarters. In rams a bold masculine head is an essential feature.

Volume 1 Flock Book of this Breed was not issued until 1906 but sheep of this type were common in the Dorset area for upwards of one hundred years previously. The first Flock Book listed 51 Flocks with a total of 21,376 ewes. The largest flock being the property of William Hooper of Newburgh, consisted of 1,200 ewes. It is of interest to note that all of the flocks were situated in the County of Dorset – hence the name Dorset Down.

Many changes have taken place within the Breed in the last 100 years. Although there is now almost double the number of flocks, compared to 1906, they are greatly reduced in size and are no longer hurdled flocks. This was a system where sheep were folded on various catch crops, behind wattle hurdles, which were moved daily, so that the sheep were always on fresh grazing. It was a system used as much for the benefit of the arable crop that followed as for the sheep but this practice disappeared with the introduction of artificial fertilizers and modern farming methods – not to mention the amount of labour required for such a system. Flocks nowadays are almost all run exclusively on grass – a change that the Breed has adopted extremely well.

The other great change has been the move from disposing of the bulk of the male lambs as prime killing lambs to selling them as terminal sires to put on cross bred ewes for the production of prime lambs – a job they do extremely well. Noted for the speed at which the lambs mature producing an 18-20 kilo carcass at 12-16 weeks.

There are many attributes the Breed possesses that commend it to the smaller flock master – hardiness, docility, easy lambing and good mothers – with lambs that are strong and active at birth. A breed that thrives on grass either new leys or permanent pasture. The ewes will lamb from early November onwards without any artificial aids and are noted for their ability to keep breeding successfully for a considerable number of years.

The Breed has enjoyed a great renewal of interest resulting in an increase in Membership and sheep numbers. This has been reflected in the Sales held by the Association over the years, with the Breed Sale being an annual event held at the traditional time in early summer.
